made2perform

Georg Zimmermann, GER,
Team Intermarché-Wanty

uvex is performance.

made2perform is our pledge to design and manufacture products that deliver exceptional performance without compromising on safety, comfort, quality or sustainability. Products that perform – from the workplace through to the world of sports and leisure.

uvex stands for passion, motivation, and excellence. “made2perform” is a motivating force for our customers, athletes, uvex employees, and all those who aspire to the winner’s podium.

uvex

protecting people since 1926

Professional or recreational. Competition or fun. As one of the leading international manufacturers of protective products with headquarters in Fuerth, we at uvex inspire our customers every day with groundbreaking technologies and innovative products. 24/7 – since 1926. To achieve the best, whether in leisure, sports or work. To protect people.

“I appreciate uvex’s expertise in constantly looking for improvements. Through our joint work and feedback, the aerodynamics are getting even better, which is very important in a sport that is getting faster and faster. For a sprinter, it’s the details that count. “

Gerben Thijssen, BEL
Team Intermarché – Wanty

**made in uvex –
made 2 perform
innovative. protection. sustainable.**

First-rate engineering. Backed by years of expertise. Passionate about quality. "made in uvex" is more than a simple promise. It embodies our accumulated expertise in product design and innovation – since 1926. Our highly qualified team of design, development, and product management experts creates products with standard-setting performance, safety and durability. Our product development is based on extensive laboratory tests, toxic substance controls, computer simulation, and actual field tests with professional athletes. During the manufacturing phase, premium workmanship and environmental responsibility go hand in hand. "made in uvex" is our quality pledge. And our benchmark for outstanding performance coupled with ultimate protection.

Winning innovation

Cutting-edge development. Longstanding product expertise. Maximum safety. The uvex name has been synonymous with innovative products for almost 100 years. We surpass industry standards. We perfect and finetune our sports equipment through rigorous lab tests and field tests, and by using pioneering computer simulation.

Winning performance

Multiple test winners. Full confidence. Absolute dependability. Developed by expert engineers, tested by professional athletes. Our helmets, eyewear, and protective equipment meet the highest standards in safety and reliability. "made in uvex" quality – outstanding performance for every application.

Winning design

Perfected functionality. Top performance. Stylish looks. In our HQ at Fürth, the design team sets new standards. Our helmets and eyewear are not only highly protective and highly durable – they are also trendsetting, statement pieces. Product design that's visually and technically outstanding.

Winning sustainability

Eco-friendly materials. Shorter transport routes. Fair working conditions. Our vision of sustainability is clear. Responsible, innovative and progressive technologies. Sustainable raw materials and minimised CO₂ emissions. A conscientious approach to the environment and our employees. These are the three pillars of our 'Protecting Planet' strategy. Our goal is to be climate neutral by 2045. It may sound a long way off, but for the plastics industry it's an ambitious target. It's a challenge that spurs us on. Because that's who we are.

lenstech everything in view: on trails, in races, for outdoor and leisure.

Lens technology is the uvex brand's DNA. The result of in-house engineering and our own production facilities. High tech, high quality, perfect vision guaranteed.

uvex colorvision® (CV): wow effect included

- Ultimate contrast enhancement
- Maximized color perception
- 100% UVA, UVB, UVC protection up to 400nm

uvex polavision® (P): less glare, more joy

- Fewer distracting reflections
- Minimized glare reduces eye strain
- Better detail vision, even in difficult light conditions

**uvex variomatic® (V):
the quickest reaction you can imagine**

- Automatic, stepless self-tinting
- Three protection levels in one product (cat. 1–3 und cat. 2–4)
- From light to dark in 25 seconds

**uvex supravision®:
unequaled anti-fog performance**

- 200% more anti-fog (vs. standard)

uvex mtn perform small

mountainbike

Action. Fun. Safety. Gnarly enduro, big jumps at the bike park, tough Transalp tour stages. Maintaining focus in the saddle is not always easy. Which is why protective

equipment is a must. uvex mountain bike glasses offer reliable safety for all your mountain biking adventures.

junior & kids

Biking. Hiking. Commuting to school. Kids are always on the move. So, to keep them safe while they're out there, we use the same premium safety technology as we do for

adults. On two wheels, up high in the mountains, or simply bobbing along in a booster seat, uvex kids' eyewear make no compromises on safety.

tech summary

Lens technology

uvex colorvision®

The four innovative uvex colorvision® tints provide ultimate contrast and perfect vision – with a matching lens for every situation.

- Ultimate contrast enhancement
- Maximum color perception
- 100% UVA, UVB, UVC protection up to 400 nm

uvex variomatic®

Eyewear with uvex variomatic® automatically reacts to the natural light conditions.

- Automatic, stepless self-tinting
- From light to dark in 25 seconds
- Three levels of protection in one lens (cat. 1–3 and cat. 2–4)
- 100% UVA, UVB, UVC protection up to 400 nm

uvex supravision®

The uvex supravision® coating ensures fog-free vision without affecting the optical quality of the lens. It remains fog-free for twice as long as specified by the standard.

- 200% more anti-fog (vs. standard)
- Break-resistant for maximum protection
- 100% UVA, UVB, UVC protection up to 400 nm

uvex polavision®

Reliable protection against reflections and glare: the lenses of the uvex polavision® series absorb diffused light and reliably protect the eyes from overexertion.

- Polarizing lenses against annoying reflections
- Reduce stray light and glare
- For a comfortable viewing experience

uvex colorvision® variomatic®

uvex variomatic® meets uvex colorvision® technology: lens tinting and contrast enhancement – in a single, innovative uvex lens. Made for sports activities in any weather and any environment.

Decentered lens technology

Distortions and curvatures in the field of view can quickly lead to irritation. uvex therefore uses grade 1 decentered lenses, which allow a distortion-free view.

Direct lens ventilation

The uvex temperature competence ensures permanent, draft-free ventilation. This keeps the field of view fog-free twice as long as conventional standards demand.

Easy to clean

The special coating on the lens allows moisture or fingerprints to be easily removed.

VPX

uvex sunglasses with variomatic polavision extended technology (VPX) – featuring automatic, stepless self-tinting in all light conditions, as well as secure protection against glare and annoying reflections.

Interchangeable lenses

Interchangeable lenses guarantee uncomplicated handling and perfect visibility in all weather conditions.

Robust and scratch-proof

Made of extremely durable polycarbonate, the lenses withstand temperatures down to -40 °C without compromising mechanical strength. A special coating to protect against damage according to standard EN ISO 12312-1 makes the lenses scratch-resistant without impairing the view.

Soft nose pads and earpiece ends

A pair of glasses fits perfectly when you cannot feel them. Soft nose pads and soft earpiece ends ensure pressure-free wearing comfort. The soft earpieces are cold-formable on a variety of models. They ensure a perfectly secure fit.

UV protection

Ultraviolet absorbers integrated directly into the raw material filter 100% of harmful UVA, UVB, and UVC radiation up to 400 nm.

European standard for downhill skiing and snowboarding goggles

EN ISO 18527-1:2022 / EN ISO 18527-1

100 % UV protection up to 400 nm

Our UV absorber offers 100% protection against damaging UV rays up to 400 nm.
